

Lake Technical College

SEEKING A CNC PRODUCTION SPECIALIST INSTRUCTOR

Lake Technical College, located in Eustis, FL, is seeking a CNC Production Specialist Instructor for the new Center for Advanced Manufacturing.

Responsibilities

The CNC Production Specialist Instructor will perform manufacturing duties, including CNC machining or Specialized Equipment Operation, as required to ensure the students meet all goals and objectives. Specific responsibilities of the CNC Production Specialist Instructor include, but are not limited to the following:

- Set-up and operate CNC and/or other specialized equipment.
- Use NC and manual lathes, mills and grinders
- Interpret blueprints and guide sheets
- Perform inspections to blueprint using standard gages and CMM
- Perform GD&T as well as other quality procedures
- Perform some hand finishing, laser marking, and parts cleaning and other general tasks
- Perform preventative maintenance and basic troubleshooting
- Participate in college's continuous improvement initiatives.

Requirements

Vocational/Technical school training on CNC operation and/or programming is highly desirable. Candidates should also possess the following skills/experiences:

- 6+ years of production CNC machining experience
- Prefer familiarity with manual machining including lathes, mills and/or grinders
- CNC programming experience is preferred
- Ability to read blueprints and work with measuring devices
- Knowledge of Lean Manufacturing and production philosophies
- Demonstrated communication and interpersonal skills
- Demonstrated ability to work successfully in a team based environment
- Teaching experience preferred.
